**Mayflowerstone**  
the stone, quartz & corian specialists

Many of the worktops we manufacture can be used with 1810 Axis sinks. These give a sleek look with the sides clad in the same material as the worktops. With Corian this can give a seamless effect. With stone sides would be clad and there would be a 3-5 mm overhang all around the sink cutout. Please call the office to discuss your requirements.

#### Base Unit Guide.
