 caesarstone®

Life in Stone

-  Non-porous
-  Easy Care & Maintenance
-  Stain Resistant
-  Scratch Resistant
-  Durable
-  Hygienic
-  Heat Resistant

At Caesarstone, we pride ourselves on designing and manufacturing the very best premium worktop surfaces. Each expertly crafted Caesarstone slab meets the highest technical standards and promises a lifetime of elegance for your home.

Within our carefully curated range you are sure to find a Caesarstone surface to match your project. Timeless designs evoke the opulence of white marble, the drama of granite or delicacy of tumbled pebbles, each bringing the natural world into the heart of your home. Veining and patterns go from the elegantly understated through to rich, bold and striking stones. Texture and natural patina are found in our contemporarily styled Metropolitan Collection, which includes surfaces suited to rustic, industrial and minimalist spaces.

Whichever style you choose, you can do so in confidence when you invest in the Caesarstone brand. Our surfaces are created with the needs of busy kitchens and bathrooms in mind. They are stain, scratch and heat resistant - ensuring your worktop will look beautiful for years to come. Equally important, our surfaces require minimal daily upkeep, and in most instances will wipe clean with a cloth and mild detergent, meaning that the heart of the home can stay clean, hygienic and beautiful at all times. For additional peace of mind, we offer a long-term residential warranty and employ a team of after-sales and technical specialists, should you ever require assistance with your kitchen project.

6011 Intense White

Price Group / 01

An essential suite of designs that work across a variety of domestic or commercial applications, from the sophisticated 3100 Jet Black and earthy 4350 Mink to the stunning 6011 Intense White. 6270 Atlantic Salt and 6141 Ocean Foam provide bolder looks inspired by aged granites and classic terrazzo.

Price Group / 02

Caesarstone Price Group 2 comprises 15 colours that span the breadth of the brand's design expertise. Alongside perennial favourites such as 4141 Misty Carrera and 4600 Organic White, sit exciting modern designs such as 4601 Frozen Terra, a minimalist take on the highly coveted terrazzo design. The recently launched Pebbles Collection delivers a superior natural stone motif across five unique and stylish white and grey base tones.

1006 Agger Grey

Caesarstone's newest collection is inspired by nature, innovation and sustainability. The collection embodies the essence of these small stones that are shaped by the natural forces around them. Our sustainable surfaces now feature five thoughtfully crafted, pebble-inspired colours that nurture the comfort and calm that is so essential to our times.

From the lighter tones of 1001 Riverlet to the richer shades of 1006 Agger Grey, each design features the organic intonations and subtle veining created by nature's influence on the humble pebble. This collection is the perfect way to bring nature's blessings into your home.

The Pebbles Collection

Price Group / 03

A carefully curated selection of 8 designs featuring a diverse range of colour tones including dramatic 5100 Vanilla Noir and stunning 5143 White Attica. Price Group 3 delivers exceptional style at a highly competitive price point.

5143 White Attica

5100 Vanilla Noir

The Supernatural Collection

5101 Empira Black

The Supernatural Collection marks an aesthetic milestone for contemporary surfaces, combining the spirit of nature with the high performance of Caesarstone quartz.

The collection expresses the complexity, emotion and uniqueness of natural stone while delivering superior quality and durability. Taking inspiration from diverse geographies, cultures, architecture and interior trends, Caesarstone's design team capture the timelessness of marble, granite and travertine and interpret them for modern luxury lifestyles.

The Metropolitan Collection

4033 Rugged Concrete

4044 Airy Concrete

Caesarstone leads the industrial trend with the award winning Metropolitan Collection. Rough and unpolished, this bold look forms part of the revival of modernism, a rethinking of brutalism and the rekindling of industrial architecture.

Robust construction finishes have become a popular choice amongst consumers, inspired by factories and lofts and translated for residential and commercial interiors. Each energetically styled surface in the Collection has been designed to reflect the authentic textures of raw manufacturing, such as oxidized steel, poured plaster and raw concrete. Via innovative cutting-edge technology exclusive to Caesarstone, weathered patinas have been achieved in quartz for the very first time – a breakthrough that can be felt as well as seen.

4046 Excava

Price Group / 04

This price group contains 24 products of outstanding beauty and quality in a variety of different aesthetics, unique to Caesarstone. A diverse suite of surfaces ranging from refined designs interpreting the nuance of natural stone to dramatically bold styles covering a multitude of colours, tones and textures. Included in this group are contemporary surface designs such as the billowing 4011 Cloudburst Concrete and elegant 4044 Airy Concrete. Two recent additions, 5820 Darcrest and 5121 Layalite, further increase the uniqueness and beauty of this group.

Price Group / 05

The pinnacle of Caesarstone's design capabilities, displaying rare subtlety and elegance, these products offer unparalleled luxury for the home. Iconic designs, including 5031 Statuario Maximus, a rich, creamy marble with organic light grey veining, are joined by 4046 Excava, a unique surface that has been inspired by the intriguing patinas of cast and oxidised concrete.

Whitelight Collection

5112 Aterra Blanca

Caesarstone's Whitelight Collection celebrates our natural desire to connect with nature in this suite of lighter tones and organic forms that bring the outside in, anchoring us in our surrounding world. The collection is made up of new forms representing the most current compositions of natural stone and marble, as well as enduring classics that perfectly capture the march of time and millennia of geological processes.

Jade and copper tones intertwine across the intricately veined 5171 Arabetto, whilst the misty white base of 5112 Aterra Blanca reveals softer and more delicate veining. Now is the time to bathe your home in the natural warmth of Whitelight.

5171 Arabetto

4141 Misty Carrera

5143 White Attica

5141 Frosty Carrina

5151 Empira White

5031 Statuario Maximus

5820 Darcrest

Darcrest embodies the beautiful contrasts of minerals from different geological eras. A dark earthy base is enriched with tiny spots and sediments like those that have slowly accumulated on rocky topography. In Darcrest, that gentle erosion is revealed through a translucent veil of freckled ochres and brownish greens, achieving visual interest and stimulating depth.

This layered design gives body to the dark kitchen trend; a mysterious organic presence enhanced by its Honed Finish. A textural palette of brown, grey, black and rust would complement the surface perfectly, particularly with tactile materials such as oxidised metals, stained woodgrain or coarse textiles.

5121 Layalite

Layalite offers a clean and striking look inspired by the exciting juxtaposition of soft snowfall on the roughness of mountain rock. Its intense white base helps elevate the kitchen into a fresh and sophisticated space. The oversized vein structure is minimal in its application, revealing mottled grey and ochre markings like the faint outlines of mountain peaks uncovered by melted snow.

It complements grey concrete, glazed white tiles and subdued neutral paints. Brushed gold hardware and walnut cabinets dress it up, while matte steel and oak feel more homely. This original surface brings the beauty of a winter landscape indoors.

The Outdoor Collection

405 Middy

UK gardens are increasingly becoming spaces in which we live, work, play and entertain - and we want to do so all year round. Caesarstone's outdoor surfaces provide the answer to every homeowner's desire to cook, dine and entertain from the comfort of their own garden. In conjunction with this, they have been rigorously tested to ensure they will stand the test of time against harsh sunlight, and like all our surfaces, they are non-porous, durable, scratch, stain, mould and mildew resistant and easy-to-clean.

The collection itself comprises three designs; 515 Palm Shade, the classic look of white marble with a subtle warm veining; 405 Middy, a white concrete look to complement tiling, stone, or decking; and 406 Clearskies, a pale grey concrete design perfect for contemporary gardens. However you imagine your dream outdoor space, Caesarstone's Outdoor Collection will bring your vision to life.

Sustainability

Caesarstone is committed to developing environmentally friendly and sustainable products through continued innovation of our products and greener production processes. We are focused on creating a value chain that is built on environmental, health and safety practices, as well as a greener and safer future for all of our employees, customers, partners and communities.

We do this through four main pillars:

Sustainable products

Caesarstone is developing environmentally friendly products with superior quality, strength and durability, thus adding to the long-lasting nature of its surfaces.

Environmentally responsible production

Caesarstone is committed to conducting its business in compliance with all applicable environmental laws, regulations and permits in a manner that has the highest regard for sustaining the environment in which it operates. Caesarstone have committed to reducing its carbon footprint, styrene emissions, water use and wastage, as well as increasing the use of renewable energy.

Health and safety

The brand's goal is to achieve a world-class health and safety system and just as Caesarstone ensures the safety and quality of its products in homes, offices and commercial developments, the company is taking measures to protect its fabrication partners who form a key part of the supply chain.

Social responsibility

Caesarstone is committed to creating a positive impact across the value chain for its employees, suppliers, customers, and the communities in which it works. Caesarstone has pledged to support the communities in which its team work and live. This includes involvement with initiatives that improve educational, health and social issues for the communities who live near its facilities. All employees are encouraged to enrich themselves within their local communities, and via social and community investment Caesarstone is improving the wellbeing of the people both in and around its facilities.

“At Caesarstone, we are privileged to be part of everyday life in millions of homes worldwide; that is why we are committed to sustainability through continued innovation of our products and greener production processes, while remaining focused on a value chain built on environmental, health and safety practices. Our aim is to inspire a journey of partnership, creativity and to celebrate Life in Stone.”

Yuval Dagim
Chief Executive Officer

Some variation in colour and pattern can occur. We always recommend viewing a full slab or product installation as part of your colour selection process.

Virtually maintenance free, Caesarstone's hard, non-porous surfaces are simple to clean and require no sealing to renew their lustre. In most cases, soap and water or a mild detergent is enough to keep your Caesarstone surfaces looking like new. If necessary, you can use a non-abrasive soft soap along with a non-scratch or delicate scrub pad. Afterwards, thoroughly rinse with clean water to remove residue. Please note that Caesarstone finishes other than polished may require increased daily maintenance due to their distinctive appearance.

For added peace of mind, Caesarstone products come with a 25-Year limited Residential Warranty.

Quality and service

Caesarstone has received worldwide recognition for its commitment to quality, safety and environmental standards. Each one of our surfaces is carefully inspected to ensure that it meets the highest level of international quality standards. Our surfaces come with a 25-Year UK warranty on domestic installations and are backed by professional customer service and support.
